**Don't Let a Cold Get a Good Start**  
The way to check a cold is to fight it from the first. Even the worst colds are easily conquered if attacked early enough. Colds may lead to asthma, bronchial troubles and pulmonary affections. In the treatment of these one of the first needs is to build up body resistance. Eckman's Alternative often has assisted in such upbuilding. As a treatment for the troubles named, it has been used for more than twenty years. And in many instances it has effected lasting relief.  
As with any other medicine, it should be regarded only as a first aid to right care and hygienic living—and a safe one. For it contains no narcotics, opiates or habit-forming drugs of any sort.

**How to stop dandruff and loss of hair with Resinol**  
Here is a simple, inexpensive treatment that will generally stop dandruff and scalp itching, and keep the hair thick, live and lustrous:  
At night, spread the hair apart and rub a little Resinol Ointment into the scalp gently, with the tip of the finger. Repeat this until the whole scalp has been treated. Next morning, shampoo thoroughly with Resinol Soap and hot water. Work the creamy Resinol lather well into the scalp. Rinse with gradually cooler water, the last water being cold. All dandruff and loss of hair will disappear.
